SUBJECT INDEX

N-Acetylaminofluorine in underfed rats, differences in response of glucuronide and glutathione conjugating enzymes, 103
Aflatoxin B_1 in underfed rats, differences in response of glucuronide and glutathione conjugating enzymes, 103
N-Alkylnitrosoureas and saccharin cocarcinogenicity in cultured human diploid fibroblasts, 413
Atrazine technical, a triazine herbicide, teratological evaluations in rats and rabbits, 307
Azoreduction, mammalian hepatic, a CASE–SAR study, 499

Cadmium chronic exposure during pregnancy in the mouse, influence of exposure levels on fetal and maternal uptake, 183
Cadmium-containing purified diet, female reproduction and pup survival and growth for mice fed through six consecutive rounds of gestation and lactation, 321
Chlordecone alcohol, effects on isolated ovine erythrocytes, 237
Chlordecone, effects on isolated ovine erythrocytes, 237
Chromium(VI) compounds in the presence of nitrilotriacetic acid, mammalian cell transformation induced by, 251
Chrysotile asbestos, functional and biochemical effects on rat lung following instillation, 27
Cobalt, developmental toxicity in the rat, 193
Crocidolite asbestos, functional and biochemical effects on rat lung following instillation, 27

Diisopropylphosphorofluoridate, effects of phenytoin, ketamine, and atropine methyl nitrate in preventing neuromuscular toxicity of, 439
4-(Dimethylamino)benzoic acid, the 2-ethylhexyl ester of (Escalol 507), effects on percutaneous absorption of hydroquinone in humans, 279
1-Dodecylazacycloheptan-2-one (Azone), effect on percutaneous absorption of hydroquinone in humans, 279

Gasoline-treated male rats, rapid postexposure decay of α_{2u}-globulin and hyaline droplets in the kidneys, 145

2,2′,4,4′,5,5′-Hexabromobiphenyl, anchored cell analysis/sorting coupled with the scrape-loading/dye-transfer technique to quantify inhibition of gap-junctional intercellular communication in WB-F344 cells, 261
Hexachloroethane binding to biological macromolecules from rat and mouse organs, 403
Hepatic parenchymal cells, a rapid method for preparing for studying drug metabolism, 129

Isopropylcyclohexane, metabolism of nephrotoxic, in male Fischer 344 rats, 19

140-Lanthanum, tissue uptake and intracellular distribution after oral intake by the rat, 229
Lead:
- behavioral development, effects of varying dosage and schedule on survival and performance of young common terns (*Sterna hirundo*), 173
- prenatal and neonatal exposure effect on gonadotropin receptors and steroidogenesis in rat ovaries, 461
- prenatal and neonatal exposure effect on the affinity and number of steroid receptors in the uterus, 451

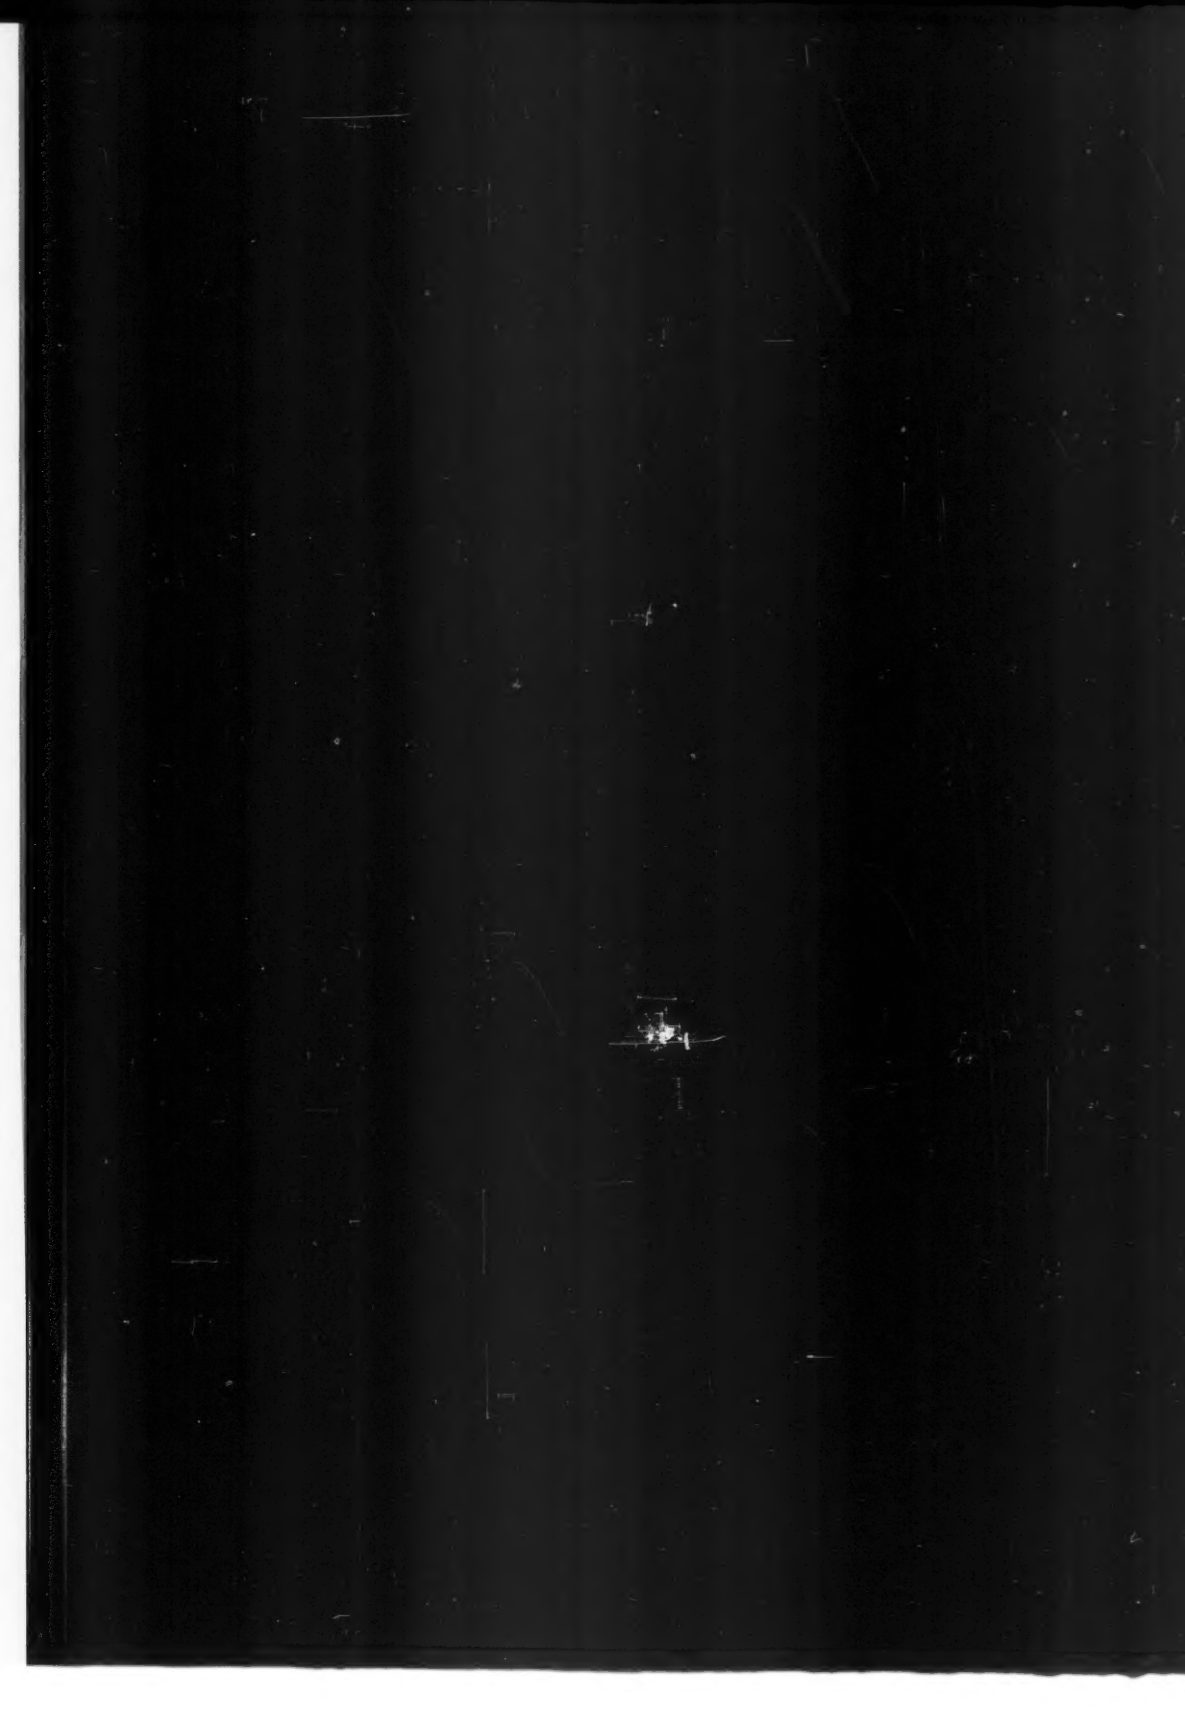
Methyl isocyanate toxicity inhibition in mice by starvation and dexamethasone but not by sodium thiosulfate, atropine, and ethanol, 93
Microcystis aeruginosa, oral toxicity of a bloom of the cyanobacterium administered to mice over periods up to 1 year, 291

Nickel-copper oxides, comparative in vitro cytotoxicity to rat, mouse, and dog pulmonary alveolar macrophages, 373
Nickel oxides, comparative in vitro cytotoxicity to rat, mouse, and dog pulmonary alveolar macrophages, 373
Nickel sulfate in drinking water, evaluation of tissue disposition, myelopoietic, and immunologic responses in mice after long-term exposure, 357
Nitro-polychlorinated dibenzo-*p*-dioxins and related compounds, mutagenic potential of binary mixtures, 345

Organochlorine pesticide residues in chicken eggs, survey of, 543
Ozone-exposed rats, qualitative and quantitative changes in cytochrome P-450-dependent xenobiotic metabolism in pulmonary microsomes and isolated Clara cell populations derived from, 515

Particles, intrapleural deposition, leukocytic responses, particle-cell associations, and clearance of particles from the pleural space compartment, 41
Particulate extracts, airborne, chemical characterization of a polar portion in the neural fraction derived from, responsible for embryotoxicity in chicken embryo, 533
Perfluoro-*n*-decanoic acid (PFDA), effect of thyroxine supplementation on response to, in rats, 491
Phenytoin, lack of carcinogenicity in (C57BL/6 x C3H)F_1 mice, 111
Pollutant atmospheres, effects on surface receptors of pulmonary macrophages, 385
[^{14}C]Propranolol, transplacental and mammary passage of radioactivity in rats treated vaginally and orally, 1

Saccharin and *N*-alkylnitrosoureas cocarcinogenicity in cultured human diploid fibroblasts, 413
Selenium:
  embryotoxic and teratogenic effects, in diet of mallards, 477
  toxicosis in wild aquatic birds, 67
Soman:
  changes in nerve membrane polarization following repeated exposures, 121
  effects of phenytoin, ketamine, and atropine methyl nitrate in preventing neuromuscular toxicity of, 439
  effects on vascular contractility of rabbit arteries, 201

Tetrachlorophthalic anhydride, effect on hepatic microsomal metabolism in rats and mice, 217
Tuna fish diet influences cat behavior, 161


Urine, mutagenicity, from greenhouse workers, 429
